

Photo Competition:

“Spot German in Latvia”

- win a German language course!

Where do you see the German language, German organisations or other symbols related to Germany in your everyday life in Latvia? Which connections between Germany and Latvia, from past or present, can you detect through these examples of German in Latvia?

Capture in a photo, how and where you can “spot” German in Latvia!

Describe briefly in a short text what this photo means to you and why you think that it is typical of German in Latvia, or why it is particularly interesting or beautiful.

You can win one of three German language courses by Deutsch-Uni Online (DUO) according to your individual language level!

What are you waiting for? Get creative and send us your pictures until **October 31** as a message on Facebook! All photos will be posted – your likes for the photos and texts will be counted for choosing who the winners of the prizes will be!  /daadriga/

The description of your photo can be in German, English or Latvian. We're looking forward to your contributions – good luck!

A campaign by the DAAD Information Centre Riga as part of the German Language Days in Latvia
